The fine print

- Read for EU, commercial use. Change the frame and the verdict can change.
- "Needs review" means a human should confirm before relying on the call.
- This usage license reflects machine-readable and expressed restrictions detected on the source at check time. It is not legal advice; actual rights depend on your jurisdiction and intended use. Jurisdiction note (EU): the EU DSM Directive (2019/790) provides a text-and-data-mining exception - Art. 3 for research organisations and cultural-heritage institutions, and Art. 4 more generally - that may permit mining of lawfully-accessed content if you qualify. The Art. 4 exception does not apply where the rightsholder has reserved the right in a machine-readable way (a reservation this verdict detects and

honors). Context, not permission.
